Stormwater Management

The Stormwater Program is responsible for ensuring Oklahoma's waterbodies are protected. City Ordinance, Parts 18; Chapter 4: Construction Activities requires a Land Disturbing Permit *before* the land is cleared.

~Are there any creeks, wetlands, or tributaries on the property? No ___ Yes ___

*Additional permits may be required: 404 Permit from US Army Corps of Engineers for disruption of any wet or dry creek or tributary.

~An OKR10 Stormwater Construction Permit must be obtained from Oklahoma Department of Environmental Quality (ODEQ) prior to any land disturbance activity.

*www.deq.state.ok.us

~A Stormwater Pollution Prevention Plan (SWP3) is required in the OKR10 permit. This includes a Site Plan depicting erosion control and hazardous material locations.

The SWP3 must be approved by ODEQ and the City of Tahlequah Stormwater Manager prior to the issuance of this Land Disturbing Permit.

Your signature indicates you acknowledge and agree to implement the City of Tahlequah ordinance Parts 18; Chapter 3: Illicit Discharges, Chapter 4: Construction Activities, and Chapter 5: Postconstruction Activities. The Stormwater Manager is responsible for site inspections. Action upon noncompliance includes: stop work order, (\$1,000.00) one thousand dollar fine, suspension of water supply, or actions set forth in the ordinance.
